Installazione MacOS

The screenshot shows the Anaconda download page for MacOS. At the top, there are three tabs: 'Download for Windows', 'Download for OSX' (selected), and 'Download for Linux'. The main content is for 'Anaconda 4.3.0 For OSX'. It includes a 'Changelog' link and instructions for both 'Graphical Installer' and 'Command Line Installer'. Under the 'Graphical Installer' section, there are two options: 'Python 3.6 version' with a green 'GRAPHICAL INSTALLER (424M)' button and a 'COMMAND-LINE INSTALLER (363M)' button, and 'Python 2.7 version' with a blue 'GRAPHICAL INSTALLER (419M)' button (highlighted with a red box) and a 'COMMAND-LINE INSTALLER (358M)' button. An arrow points from the word 'Consigliato' (Recommended) below to the Python 2.7 graphical installer button. At the bottom, there are terminal commands for both Python versions and a note: 'NOTE: Include the "bash" command even if you are not using the bash shell.'
